BRUCE HANSON

Domain Specialist/Task Force Advisor

SCOPE OF SUPPORT

Bruce has been providing consulting services to Australian clients since 2011, including:

- ✓ Securing the Land 400 Phase 3 Infantry Fighting Vehicles Program for Hanwha Australia
- ✓ Development and implementation of a business governance framework used across multi business units
- ✓ Led a business transformation project across 35 sites
- ✓ Project managed complex aspects of large scale commercial and defence (ASDEFCON) bids/contracts (up to circa of \$1B) with successful outcomes. (cost, schedule, quality)
- ✓ Drafted and negotiated several strategically important contracts, through the project lifecycle process from pre tender phase through to system acceptance
- ✓ Project managed the acceptance of the Combat System, Tactical Data System and the Sonar System for the first of class ship HUON–Mine Hunter Coastal into the Royal Australian Navy
- ✓ Led companywide implementation of business infrastructural improvements such as ERP system rollout and Earned Value Management system
- ✓ Conducted a detail review of the Royal Australian Navy - Hydrographic and Meteorological capability, which resulted in a number of prioritise potential business improvement programs
- ✓ Migrated core business functions from within a division into a single corporate shared service
- ✓ Led gap analysis and deep dive reviews across a number of key troubled projects, resulting in the development of recovery plans being established for the removal or reduction of risk exposure.
